Subject: Kewaunee County, Wisconsin and water and air problems...but primarily water at this time.

Dear Ms. Capasso,

It was a welcomed conversation I had with you earlier today.

Thank you for your patience and for lending an ear to me while I told you about a few of the local problems we face.

I am attaching the petition to the EPA below as well as two attachments showing the strange "crud" floating in L. Michigan near a friends home which is very close to Algoma, WI. The Ahnapee River empties into L. Michigan about 3/4s(+/-) of a mile to the North of that area.

Also attached is the helicopter picture of the helicopter that presumably was spraying fungicides (my best "guess") on a Sun Flower field at 6:15 PM this past Monday. The field is several hundred feet from L. Michigan and rain was imminent.

Thank you again, and regarding the EPA petition, whatever assistance you may be able to render would be most appreciated by those of us in the local "trenches" :-))!!

Sincerely,

Ex. 6 Personal Privacy (PP)

PS. My cell if you would wish to call for any reason...I sometimes get way behind on e mails.
